

Metropolitan Government of Nashville and Davidson County
Department of Codes and Building Safety

Green Certificate of Occupancy

Hereby granted to

This official recognition is reserved only for developments that demonstrate responsible, quality construction with respect to energy efficiency, environmental impact, and reductions in the use of shared municipal resources.

This building has received superior ratings in environmental impact areas, and leads Middle Tennessee in exemplary form as sustainable, environmental, and green. All work is in accordance with best green building practices as defined by the Metropolitan Code of Law and respected third-party certifiers, this qualifying as construction that will forever enhance Nashville's future.

It is with pride and good practice that we hereby bestow the honorable distinction of Metropolitan Nashville-Davidson County's Green Certificate of Occupancy as a formal and permanent record of sustainability of this construction and design.

Director, Codes and Building Safety
